

OTHER INSURANCE INFORMATION

Beginning March 1, 2013, certain covered individuals (including spouses/domestic partners, and retirees) who have access to health group coverage offered by a current or former employer must enroll in that plan, **without regard to the cost of the plan**. If the employer has more than one plan option, the plan option selected must be at least as comprehensive as the UFCW Northern California & Drug Employers Health Plan (the Plan) in which they are currently enrolled.

- This change applies to any spouse or domestic partner with access to an active plan through a current employer or through a retiree plan through a former employer.
- This change applies to a working retiree with group coverage through a current or former employer. If a retiree is actively employed after the retiree’s date of retirement from the Pension Fund, they must elect any coverage that is available to them through their current employer.
- A retiree, spouse or domestic partner who has other group coverage must enroll for coverage under the rules of the Fund, but are not required to enroll any dependents.
- The Plan will reduce benefit payments for a retiree, spouse or domestic partner who does not enroll in a plan available through his or her employer (current or former) or who does not enroll in the plan with benefits that are at least as comprehensive as the benefits under the UFCW Northern California & Drug Employers Health Plan.
- If a retiree, spouse or domestic partner is unable to enroll in an available group health plan until that plan’s next open enrollment, the Plan will allow a one-time grace period until that other plan’s next effective date of coverage. The Plan will require documentation from that plan stating enrollment at this time is not possible and identifying the date of the next open enrollment for that plan and the effective date of coverage. During this grace period, benefit payments will not be reduced. Signed certification on the employer’s letterhead will be required to certify that a retiree, spouse or domestic partner does not have access to other group health insurance or that changes are not allowed outside of the open enrollment period.
- Members will be required to certify, under penalty of perjury, whether they or their spouse or domestic partner have access to other health coverage. In addition, members will be responsible for reimbursing the Plan for any amount paid by the Plan for them or on behalf of a spouse or domestic partner that should not have been paid.

Please complete and mail back to the Trust Fund the following questionnaire to the address above, including signature on last page.

If a working retiree, spouse or domestic partner are currently unable to enroll in the employer’s health plan because of being outside of the employer’s open enrollment period, documentation will be required from the employer on company letterhead identifying the date of the next open enrollment and that changes are not allowed outside of open enrollment.

What is the date of the next open enrollment period? _____

What date will the plan become effective? _____
