Kaiser out-of-pocket costs

Effective January 1, 2021, as long as the patient has a Health Reimbursement Account (HRA), Kaiser will no longer require patients to pay their cost share before receiving covered service (patients will still be required to pay for non-covered services at the time of service).

The new process will work like this:

Kaiser will send the claim to the Trust Fund and the patient liability will be paid from the patient's available HRA balance directly to Kaiser. Under this process, Dual members will no longer be required to submit claims for manual review.

How to qualify

In order to qualify for this process, the patient must have an HRA. Participants who are age 18 or over must also complete the Kaiser HIPAA Authorization form. You may be eligible for an HRA for you and your dependents and add credits to your HRA by participating in the Wellness Program. HRA eligibility and credits are processed annually.

Once you and your covered Dependents (aged 18 or older) submit the signed Kaiser HIPAA authorization form(s) to the Trust Fund Office (TFO), using your available HRA balance will be seamless. However, please note the HIPAA authorization form must be re-submitted annually.

The process will follow these steps:

- Check-in for your Kaiser medical appointment as normal.
- The Kaiser system will indicate if you have a Health Reimbursement Account, and if so Kaiser frontline staff will not ask you to pay your

deductible or co-insurance before you receive treatment for most medical services. Kaiser will not know your account balance, so you'll need to direct any questions about HRA balances to the TFO.

- You will be asked to pay at Kaiser for certain services which could be elective in nature like cosmetic surgery, or if you're at a non-Kaiser facility or provider's office by referral.
- Kaiser will first send the claim to the TFO for payment.
- The TFO will pay Kaiser using your

HRA credits.

- You will receive an Explanation of Benefits (EOB) in the mail from the TFO showing how the HRA credits were applied to the claim.
- If the available credits in your HRA are less than your cost share/liability for the claim, or if your treatment is not a Covered Service, the EOB will also show an unpaid balance. The unpaid balance is your out-of-pocket expense. It is the amount you owe Kaiser.
- You will receive a bill from Kaiser for the unpaid balance.

Check your status

Open Enrollment (OE) is over,
confirm everything is correct

- Log into **UFCWTRUST.COM**
- Confirm your Open Enrollment is complete
- Upload any missing documents
- Make sure all OE Steps are complete
- Kaiser Members: Make sure your HIPAA Authorizations are complete for you and your adult (age 18+) Dependents to receive HRA reimbursement.
- Don't risk being dropped from coverage for incomplete or missing items
- Common missing items which can be completed before the end of the year:
 - Kaiser HIPAA Authorization form
 - Newly Enrolled Dependents information
 - Required Spouse/Domestic Partner Proof of Continued Relationship documentation

COMMON QUESTIONS FOR PROCESSING PENSION APPLICATIONS

How long does the application process take?

Typically, an application is processed within 90 days of receipt. However, additional time may be necessary to process your application if we need additional information. For example, we may need to request from you or another third party, additional information or documents necessary to make a determination of eligibility such as your complete employment history, your last day worked, your marital status including any prior divorces, or your disability status.

Why do you need my full work history for application processing?

We require complete employment history, including Covered Service (any disability/military service/any other leaves of absence approved by the Plan) and all periods of employment through the date of when you apply for a benefit, so we can administer the Plan rules and calculate your pension benefits correctly. Benefit payments cannot start until your application is approved.

Why do I need to sign the Pension Payment Verification form every year?

Once you have retired and started to receive your pension benefits, you are required to complete a Pension Payment Verification (PPV) form once a year. Your signature is required to complete the form. The purpose of this verification is to ensure you are receiving your pension and it is a means of providing other information to the Trust Fund Office. If you do not complete the form and return it in a timely manner to the Trust Fund Office, your pension payments will be suspended until the completed form is received. **Note: Due to COVID-19, the PPV submission requirement is currently suspended through March 31, 2021.**
